### CORE COMPETENCIES:

- ✓ **AI and Language Learning Models:** Ensure that your team receives personalized and adaptive training for enhanced skill development.
- ✓ **Engineering:** C++, Unreal Engine, Unity, VBS, and Frostbite development for creating cutting-edge training solutions.
- ✓ **Research & Development:** Stay at the forefront of technology, ensuring your training stays ahead of the competition.
- ✓ **High-Fidelity Content:** HLA and DIS-compliant 3D models, MOCAP, and technical art to create realistic and immersive training experiences.
- ✓ **Real-world data integration:** Create authentic and context-rich training scenarios by incorporating real-world satellite orbital data, Cesium terrain integration, and whole-world terrain into our simulations.

### NAICS CODE:

- 541511- Custom Computer Programming
- 541512- Computer Systems Design
- 611420- Computer Training
- 611430- Professional and Management
- 541690- Scientific and Technical Service
- 585218- Industry Company Services

### CERTIFICATIONS:

- Small Business Certified (SMC)
